first impression presentation

Natália Búzková

I am an artist who merges design with inner world of individuals.

I strive to create designs that resonate with others on a profound level, allowing each person to find their own depths and experience their unique emotions.

In the future, I would like to use my work as a medium to comfort individuals, reminding them that they are not alone in their struggles.

game *Poznanie (Cognition)*

card game built on pure emotions that each individual experiences daily

designated to educate all ages:

- / two levels of board game

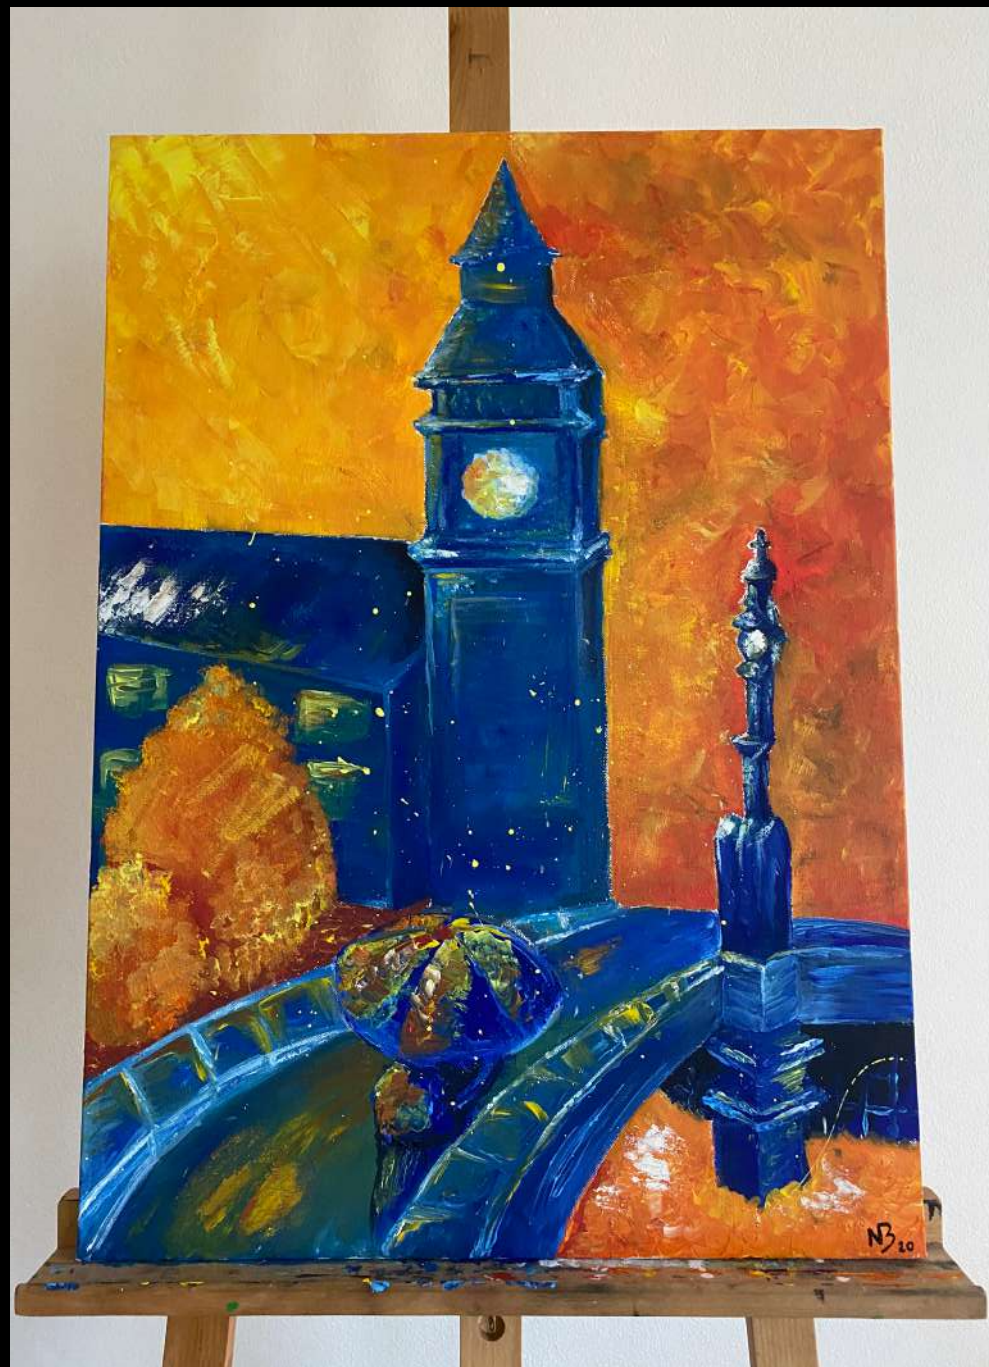

- / how to be open to not only feel those emotions, but to talk about them freely in a safe space

- / to learn about emotions and recognize their importance

personal project *sournsweetz*

sournsweetz started as a secret Instagram account where I posted some of my favorite moments that I captured together with my thoughts and writings

today as my own book and a tribute to my brother
/ including three chapters

- architecture
- nature
- people
